ABOUT ME

I am a systems analysis and development student and a Mechanical Engineer very passionate for Software testing area focused on Quality Assurance. I had the chance to experience different solutions and methods such as functional, non-functional, regression and performance tests, also in automated and manual testing conditions. Brief experience in creation of planning and test cases, maintenance and creation of script using tools as Cypress and Robot FrameWork, integration and API testing using Postman, documentation and reports using Jira (Zephyr), Azure Pipelines and Mantis Bug Tracker. I have solid knowledge in management of testing environment, evaluation and gathering of requirements and specifications. Experience in JavaScript and Node.js, with some projects I have already finished, check my Portifolio below.

PROFICIENCY STACKS

JavaScript, HTML and CSS	1 year	Cypress Automation Test	2 years
Database SQL (MySQL e Postgres)	1 year	Robot Framework	1 year
MongoDB	1 year	Apache JMeter	1 year
Node.js (Express and Mongoose)	1 year	Postman	1 year
Microsoft Excel	1 year	Selenium Web Driver	1 year

PORTFOLIO

- Portifolio: https://resilient-stroopwafel-ac5478.netlify.app
- Project Pig Game: https://snazzy-klepon-f0e60c.netlify.app
- Mapty: https://statuesque-donut-afb477.netlify.app/
- Project Guess My Number: https://flourishing-crostata-d543ea.netlify.app
- Bank App: https://gentle-mermaid-f77f89.netlify.app
